Practice Guidelines for Acute Care Nurse Practitioners - Elsevier E-Book on VitalSource (Retail Access Card), 2e Thomas W. Barkley Jr. DSN APRN CS BC ACNP, Charlene M. Myers MSN RN CS APRN BC ACNP CCRN

- Nursing guidelines for more than 230 of the most common conditions experienced by adult patients in acute care serve as an invaluable resource in the field.
- Conditions are organized by body system for quick reference when treating patients.
- Each condition lists defining terms, incidence/predisposing factors, subjective and physical examination findings, diagnostic tests, and management strategies to provide help every step of the way.
- Coverage also includes discussion of body systems, nutritional considerations, fluid/electrolyte imbalances, shock, and trauma for a complete look at patient care and diagnosis.
- An entire chapter dedicated to congestive heart failure gives you a deeper look at the disease.
- Specific content, as well as online references, for diseases such as SARS and West Nile Virus give you the most current information available on these evolving diseases.
- New chapters on admission, pre-op and post-op orders prepare you for every step of the patient treatment process.
- Addition of ICD-9 codes within the chapters makes classifying diseases with ICD codes easy.
- New content on Parkinson's disease, gout, testicular cancer, multiple sclerosis, bite management (including spider, snake, animal, and human) better prepare you for these situations.
- Updated and expanded content reflects changes in current guidelines and evidence-based practice, an important part of working in the field.
- Updated and expanded content on coronary artery disease and inclusion of the new JNC 7 national hypertension guidelines features more information on these common diseases.
- Expanded and updated coverage of postmenopausal women and hormone replacement therapy.
