## **The Story of Thomas Edison and the Electric Light** Rupert S. Holland

Originally published in 1911 as part of the author's larger "Historic Inventions," this Kindle edition, equivalent in length to a physical book of approximately 24 pages, describes, in simple language, the life and work of Thomas Edison, especially his invention of the light bulb.

### Sample passage:

His experiments had already resulted in the production of an almost absolute vacuum, only one-millionth part of an atmosphere being left in the tube. Such a vacuum had never been obtained before. With his assistant, Charles Bachelor, he put a thread of the lampblack and tar in a bulb, exhausted the air, and turned on the current. There was an intense glow of light; but it did not last, the carbon soon burned out. Therefore he started to study the reason why the carbon had failed to withstand the electric current. His conclusion was that it was impossible to get the air out of the lampblack. Besides that, the thread became so brittle that the slightest shock to the lamp broke it. But he felt certain now that a carbon filament, made of something other than tar and lampblack, was what he wanted.

He next sent a boy to buy a reel of cotton, and told his assistants he was going to see what a carbonized thread would do. They looked doubtful, but began the experiment. A short piece of the thread was bent in the form of a hairpin, laid in a nickel mold and securely clamped, and then put in a muffle furnace, where it was kept for five hours. Then it was taken out and allowed to cool. The mold was opened and the carbonized thread removed. It instantly broke. Another thread was put through the same process. As soon as it was taken from the mold it broke. Then a battle began that lasted for two days and two nights, the object of which was to get a carbonized thread that would not break. Edison wanted that thread because it contained no air, and might stand a greater current than the lampblack. Finally they took from the mold an unbroken thread, but as they tried to fasten it to the conducting wire it broke into pieces. Only on the night of the third day of their work, in all which time they had taken no rest, did they get a thread safely into the lamp, exhaust the air, and turn on the current. A clear, soft light resulted, and they knew that they had solved the problem of the incandescent light.

### **From reader reviews:**

#### **Michael Burnette:**

In this 21st centuries, people become competitive in every way. By being competitive today, people have do something to make these people survives, being in the middle of the crowded place and notice through surrounding. One thing that often many people have underestimated this for a while is reading. That's why, by reading a publication your ability to survive raise then having chance to endure than other is high. For you who want to start reading some sort of book, we give you this kind of The Story of Thomas Edison and the Electric Light book as starter and daily reading reserve. Why, because this book is more than just a book.

#### **Edward Donnelly:**

Spent a free time to be fun activity to accomplish! A lot of people spent their spare time with their family, or their friends. Usually they carrying out activity like watching television, likely to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? Could be reading a book is usually option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of publication that you should read. If you want to try look for book, may be the publication untitled The Story of Thomas Edison and the Electric Light can be great book to read. May be it can be best activity to you.

#### **Wendy Fuller:**

With this era which is the greater individual or who has ability in doing something more are more important than other. Do you want to become certainly one of it? It is just simple method to have that. What you have to do is just spending your time little but quite enough to get a look at some books. One of many books in the top list in your reading list is The Story of Thomas Edison and the Electric Light. This book that is qualified as The Hungry Hills can get you closer in turning out to be precious person. By looking upward and review this reserve you can get many advantages.

#### **Daryl Sanders:**

Some individuals said that they feel weary when they reading a reserve. They are directly felt this when they get a half areas of the book. You can choose the actual book The Story of Thomas Edison and the Electric Light to make your reading is interesting. Your own skill of reading ability is developing when you such as reading. Try to choose straightforward book to make you enjoy to learn it and mingle the sensation about book and reading especially. It is to be first opinion for you to like to wide open a book and study it. Beside that the publication The Story of Thomas Edison and the Electric Light can to be a newly purchased friend when you're sense alone and confuse with what must you're doing of these time.
