Children will love learning all about the human body in this original book that sets our bodies in the context of the animal kingdom. Each section examines a specific area of the human body-our eyes, our nose, our skin- explains what it's for, and then compares it with the body parts of other animals. The size of our brain, the strength of our eyesight, and our ability to talk are all looked at through the lens of the animal kingdom as a whole. By looking at the bodies of other animals we will gain a better understanding of our own!
