Collaborative in design and execution, **Keywords for American Cultural Studies** collects sixty-four new essays from interdisciplinary scholars, each on a single term such as "America," "body," "ethnicity," and "religion." Some entries are explicitly argumentative, others are more descriptive. It is equally useful for college students who are trying to understand what their teachers are talking about, for general readers who want to know what's new in scholarly research, and for professors who just want to keep up.
