## **The Ditlove Photography Workshop** Michel Ditlove

Created by noted photographer Michel Ditlove, this photography course/workshop is designed to work with and help anyone who has an interest in making good photographs, from the novice with an automatic point and shoot film or digital camera, to the emerging professional or semi-pro who wants to hone and fine tune his or her talents and abilities..

This workshop does not tell you what to do, but shows you “how”? to do it and leads you to make your own decisions and know why. Whether you’re a professional photographer or simply take pictures for enjoyment, whether you’re an artist or just want pictures of your kids, it will help you differentiate between “making”? photographs or just “taking”? them.

It will help you control and create your shooting environment. It will give you the tools to use your taste, intelligence and knowledge to create and communicate what you want the way you want.

It deals with both available light and studio work.
