Does size matter? Has she been faking orgasms? Why doesn't she like oral sex? Answers that you get from your friends or on the Internet can be confusing or, worse still, completely wrong! Unlike sex advice from other publications written by men, sex therapists that only aim to pacify the sexually-incompetent and to keep them coming back for more therapy, and women who would not tell you the truth for fear of breaking your ego, this book contains brutally honest and uncensored insight into the mind of a woman. You will be blown away by sexciting topics such as: - Penile curvature preference - Different penis shapes - Circumcision preference - Why orgasms don't come easily - Involuntary orgasms - Orgasm quotas - Evaluation of blowjob positions - Ways to ask for oral sex - Why women do not swallow semen The truth about penises, orgasms and oral sex is not out there; it is in here. The only question is: can you handle the truth?
