NOTE: This is PART 1 of a three-part serialized novel. INHERIT THE STARS is also available as a complete novel through Amazon.

STEAMY SCIENCE FICTION ROMANCE...JUST WHAT THE GALAXY ORDERED!

To escape the merciless Ithian Alliance, Sair, a fugitive slave, makes a desperate deal with Drea Mennelsohn, captain of the prototype ship, Specter. But putting his life in the hands of a woman as mysterious as she is beguiling could turn out to be the biggest mistake of his life, especially when the price on his head begins to escalate.

ABOUT THE INHERITED STARS SCIENCE FICTION ROMANCE SERIES:

The year is 3500 AD—more or less. No one really keeps track anymore. Since the fall of peacekeeper planet, LaGuardia, two centuries before, much has been lost. Few remember that LaGuardia was once known as Draxis. Fewer still have knowledge that Draxis once guarded a spatial vortex—a crossrip in time and space—and passageway to a legendary world called Earth where the human species originated. Somewhere, hidden in a forgotten archive, is the written history of the known universe and the chronicles of the men and women who helped forge a future in the stars.

Author LAURIE A. GREEN is a multi-Golden Heart Finalist and space enthusiast.
