**Prolegomena to Any Future Metaphysics: That Will Be Able to Come Forward as Science: With Selections from the Critique of Pure Reason, Revised Edition (Cambridge Texts in the History of Philosophy)** Immanuel Kant

This new, revised edition of Kant's Prolegomena, the best introduction to the theoretical side of his philosophy, presents his thought clearly through careful attention to his original language. Also included are selections from the Critique of Pure Reason, which fill out and explicate some of Kant's central arguments (including famous sections of the Schematism and Analogies), and in which Kant himself explains his special terminology. The first reviews of the Critique, to which Kant responded in the Prolegomena, are included in this revised edition. First Edition Hb (1997): 0-521-57345-9 First Edition Pb (1997): 0-521-57542-7
