Volcanoes (Let's-Read-and-Find-Out Science 2) Franklyn M. Branley

'This trim overview gives young readers an excellent grounding on volcanoes in an efficient few words. There [is] a succinct and easily readable explanation of how volcanoes are caused by magma pushing up between (or through) moving plates in the Earth's crust. Then comes a pair of snappy maps, with bright little bursts of color denoting the Pacific Ring of Fire and other volcano locations throughout the world.' 'K.
