This No frills workbook has been on my to do list for quite some time. This is a short and sweet Introduction to a brand of makeup i was introduced to just over 4 years ago. My Career as a professional makeup artist started over a decade ago, but actually working in the beauty industry since 1991. I have always known the importance of working with premium brands, but never really delved into the unregulated beauty industry as far as ingredients and chemicals are concerned. My portfolio is extensive having worked in Fashion, Red Carpet, Media, Editorial, Tv & Film, also Internationally with some amazing Photographers and production teams. 4 Years ago i was introduced to a product line that i had never heard of and wasn't very complimentary in the beginning, but the more i learned about this brand and incorporated the products into my kit, i fell in love with it. These products are superlative in quality, and the results are simply stunning. Whats unique is the fact they are Vegan certified, Botanically based and do not contain chemicals which is a rarity for anything decent. Normally you have to compromise on performance when you eliminate certain chemicals ect. Not this brand as you will read in the booklet. It delivers on every level, so much so i became an Independent Consultant and that allowed me to become familiar with what it feels like to recommend a product line that people are looking for. But equally i am passing on what i have learned to other consultants so they can too learn more through my experience about this fabulous brand with tips along the way.
