*Diagnostic Pathology: Nonneoplastic Pediatric* offers expert guidance on over 270 of the most often encountered nonneoplastic entities in pediatric pathology. Written by expert pathologists, this book encompasses every major organ system and concentrates on reactive, infectious, congenital, and genetic conditions with histopathology. Transplant pathology is also covered. As usual, this book is filled with high quality microscopic images. Each image is carefully annotated to highlight the most diagnostically significant considerations. Concise, bulleted text notes the most significant diagnostic factors. This volume will serve as a valuable go-to resource for pathologists, fellows and residents alike.

This book features all the classic benefits of all Amirsys® titles, including time-saving bulleted text, key facts in each chapter, stunning annotated images, extensive index, and Amirsys eBook Advantage™, an online version of the print book with larger images and fully searchable text.
