Creating Critical Classrooms: Reading and Writing with an Edge Mitzi Lewison, Christine Leland, Jerome C. Harste

This popular text articulates a powerful theory of critical literacy?in all its complexity. Critical literacy practices encourage students to use language to question the everyday world, interrogate the relationship between language and power, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. By providing both a model for critical literacy instruction and many examples of how critical practices can be enacted in daily school life in elementary and middle school classrooms, *Creating Critical Classrooms* meets a huge need for a practical, theoretically based text on this topic.
