## **Nietzsche's 'On the Genealogy of Morality': An Introduction (Cambridge Introductions to Key Philosophical Texts)** Lawrence J. Hatab

Nietzsche's *On the Genealogy of Morality* (1887) is a forceful, perplexing, important book, radical in its own time and profoundly influential ever since. This introductory textbook offers a comprehensive, close reading of the entire work, with a section-by-section analysis that also aims to show how the *Genealogy* holds together as an integrated whole. The *Genealogy* is helpfully situated within Nietzsche's wider philosophy, and occasional interludes examine supplementary topics that further enhance the reader's understanding of the text. Two chapters examine how the *Genealogy* relates to standard questions in moral and political philosophy. Written in a clear, accessible style, this book will appeal to students at every level coming to read the *Genealogy* for the first time, and a wider range of readers will also benefit from nuanced interpretations of controversial elements in Nietzsche's work.
