"MATH CAMP ~ FRACTION BASICS!!!" is based on fourth grade math. I taught fourth grade for 5 years and held a Math Camp for those struggling with math. Usually their biggest challenge was fractions. The students actually made their own fraction books like this one! We just used large index cards, colorful pencils (so they could erase) and punched holes in the top left corner and put a ring through it! They were allowed to use it any time, except during tests. I found it to be a valuable tool and their understanding increased, as well as their grades. It could also be a great tool for parents trying to brush up on their skills so they can assist with homework. So, if you're looking for fraction help, elementary fraction skills, fourth grade fractions, fraction for parents, fraction basics, beginning fractions, kids fractions help, this is the book for you!!!
