*Bengt Kronberg, Krister Holmberg, Bjorn Lindman*

**Surface Chemistry of Surfactants and Polymers** Bengt Kronberg, Krister Holmberg, Bjorn Lindman  
This book gives the reader an introduction to the field of surfactants in solution as well as polymers in solution. Starting with an introduction to surfactants the book then discusses their environmental and health aspects. Chapter 3 looks at fundamental forces in surface and colloid chemistry. Chapter 4 covers self-assembly and 5 phase diagrams. Chapter 6 reviews advanced self-assembly while chapter 7 looks at complex behaviour. Chapters 8 to 10 cover polymer adsorption at solid surfaces, polymers in solution and surface active polymers, respectively. Chapters 11 and 12 discuss adsorption and surface and interfacial tension, while Chapters 13- 16 deal with mixed surfactant systems. Chapter 17, 18 and 19 address microemulsions, colloidal stability and the rheology of polymer and surfactant solutions. Wetting and wetting agents, hydrophobization and hydrophobizing agents, solid dispersions, surfactant assemblies, foaming, emulsions and emulsifiers and microemulsions for soil and oil removal complete the coverage in chapters 20-25.

**From reader reviews:**

**Kimberly Williams:**

Do you have favorite book? Should you have, what is your favorite's book? E-book is very important thing for us to find out everything in the world. Each guide has different aim or maybe goal; it means that e-book has different type. Some people truly feel enjoy to spend their time and energy to read a book. They can be reading whatever they acquire because their hobby is definitely reading a book. Why not the person who don't like reading through a book? Sometime, man or woman feel need book whenever they found difficult problem or exercise. Well, probably you should have this Surface Chemistry of Surfactants and Polymers.

**William Mayer:**

The book Surface Chemistry of Surfactants and Polymers can give more knowledge and information about everything you want. So just why must we leave the great thing like a book Surface Chemistry of Surfactants and Polymers? Several of you have a different opinion about book. But one aim which book can give many information for us. It is absolutely suitable. Right now, try to closer with your book. Knowledge or data that you take for that, it is possible to give for each other; you are able to share all of these. Book Surface Chemistry of Surfactants and Polymers has simple shape however, you know: it has great and large function for you. You can seem the enormous world by available and read a e-book. So it is very wonderful.

**Gregory Morrow:**

Beside that Surface Chemistry of Surfactants and Polymers in your phone, it can give you a way to get closer to the new knowledge or facts. The information and the knowledge you can got here is fresh from oven so don't be worry if you feel like an outdated people live in narrow commune. It is good thing to have Surface Chemistry of Surfactants and Polymers because this book offers for you readable information. Do you often have book but you would not get what it's exactly about. Oh come on, that won't happen if you have this in the hand. The Enjoyable agreement here cannot be questionable, like treasuring beautiful island. So do you still want to miss it? Find this book along with read it from today!

**Teresa Dillard:**

As a scholar exactly feel bored to be able to reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just small students that has reading's spirit or real their passion. They just do what the professor want, like asked to the library. They go to generally there but nothing reading really. Any students feel that looking at is not important, boring in addition to can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Surface Chemistry of Surfactants and Polymers can make you truly feel more interested to read.
