Cognitive Psychology

Robert J. Sternberg

Cognitive Psychology Robert J. Sternberg

With an accessible, easy-to-understand writing style, COGNITIVE PSYCHOLOGY, Sixth Edition will give you the tools you need to be successful in the course! This book covers cognitive neuroscience, attention and consciousness, perception, memory, knowledge, representation, language, problem solving and creativity, decision making and reasoning, cognitive development, and intelligence. A review of key themes at the end of every chapter will help you spend more time studying important information and less time trying to figure out what you need to know. The author provides a "from lab to life" approach that covers theory, lab and field research, and applications to everyday life.

From reader reviews:

Sheila Rocha:

The book Cognitive Psychology can give more knowledge and information about everything you want. So why must we leave a very important thing like a book Cognitive Psychology? A few of you have a different opinion about reserve. But one aim that will book can give many data for us. It is absolutely proper. Right now, try to closer together with your book. Knowledge or data that you take for that, you are able to give for each other; you may share all of these. Book Cognitive Psychology has simple shape but you know: it has great and big function for you. You can appearance the enormous world by open and read a publication. So it is very wonderful.

Christy Brodersen:

Book is to be different for each grade. Book for children right up until adult are different content. We all know that that book is very important for all of us. The book Cognitive Psychology seemed to be making you to know about other knowledge and of course you can take more information. It doesn't matter what advantages for you. The book Cognitive Psychology is not only giving you more new information but also to get your friend when you sense bored. You can spend your current spend time to read your reserve. Try to make relationship while using book Cognitive Psychology. You never really feel lose out for everything in the event you read some books.

Seth Sutherland:

The book Cognitive Psychology has a lot info on it. So when you read this book you can get a lot of profit. The book was published by the very famous author. Tom makes some research prior to write this book. That book very easy to read you can obtain the point easily after reading this book.

Jerry Schooler:

Are you kind of active person, only have 10 or maybe 15 minute in your day to upgrading your mind expertise or thinking skill actually analytical thinking? Then you are experiencing problem with the book compared to can satisfy your short period of time to read it because pretty much everything time you only find e-book that need more time to be read. Cognitive Psychology can be your answer as it can be read by an individual who have those short time problems.
